

AWS Direct Connect Now Available in CoreSite's Denver Market

November 14, 2017

AWS Direct Connect Now Available at CoreSite's Denver Campus and Across Seven CoreSite Markets

DENVER--(BUSINESS WIRE)--Nov. 14, 2017-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., today announced CoreSite's [Denver campus](#) as the latest [Amazon Web Services](#) location serving the U.S. Mountain Region. Through AWS Direct Connect, CoreSite customers can directly access AWS over a private, enterprise-grade network connection. The benefits of direct access include reduced data transfer costs, improved network security, and consistent network performance. This deployment represents the first and only native point of connectivity to AWS Direct Connect available in the Denver market.

With this expansion, CoreSite customers have direct access to all AWS Regions globally, with native connectivity to AWS Direct Connect now available in five markets including Denver, [Los Angeles](#), [New York](#), [Silicon Valley](#), and [Northern Virginia](#). In addition, connectivity to AWS Direct Connect is available across seven major markets, including [Boston](#) and [Chicago](#), through the [CoreSite Open Cloud Exchange](#).

"At CoreSite we are focused on enabling our enterprise customers to easily and efficiently adopt and deploy hybrid- and multi-cloud solutions, by providing reliable, high-performance connectivity solutions," said Gerry Fassig, Vice President of Sales, Cloud & Hosting at CoreSite. "We are pleased that AWS has chosen to expand its reach with CoreSite in the Denver market, enabling us to solve a broader range of customer requirements."

CoreSite is an Advanced tier Technology Partner in the AWS Partner Network (APN) and has been providing CoreSite customers with AWS Direct Connect services since 2011. AWS Direct Connect provides a dedicated network connection between an Enterprise's network and an AWS Direct Connect location. CoreSite customers can privately access AWS Direct Connect through a cross connection or through high-performance, SLA-backed virtual connections via the CoreSite Open Cloud Exchange. AWS Direct Connect provides a private, low-latency alternative to connecting over the public internet or backhauling from a corporate data center. AWS offers compute power, database storage, and content delivery along with access to over 70 products, including AWS Direct Connect, to enable hybrid-IT solutions.

CoreSite's Denver campus ([DE1](#) and [DE2](#)) is strategically located in downtown Denver, providing optimized hybrid capabilities to businesses in Colorado and surrounding states. The presence of over 75 network, cloud, and IT service providers within these two data centers makes CoreSite's colocation facilities the most integral points of interconnection in the Rocky Mountain region. These strategically centralized data centers are tethered to regional communication hubs offering customers secure, reliable, high-performance solutions for their mission-critical business applications as well as a secondary location to West or East coast deployment.

About CoreSite

[CoreSite Realty Corporation](#) (NYSE:COR) delivers secure, reliable, high-performance data center and interconnection solutions to a growing customer community across eight key North American markets. More than 1,200 of the world's leading enterprises, network operators, cloud providers, and supporting service providers choose CoreSite to connect, protect and optimize their performance-sensitive data, applications and computing workloads. Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control, that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: the geographic concentration of CoreSite's data centers in certain markets and any adverse developments in local economic conditions or the demand for data center space in these markets; fluctuations in interest rates and increased operating costs; difficulties in identifying properties to acquire and completing acquisitions; significant industry competition; CoreSite's failure to obtain necessary outside financing; CoreSite's failure to qualify or maintain its status as a REIT; financial market fluctuations; changes in real estate and zoning laws and increases in real property tax rates; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
