

CoreSite Announces Dedicated Access to Oracle Cloud Infrastructure

November 27, 2018

Enterprise customers achieve high-performance network connectivity to Oracle Cloud Infrastructure

DENVER--(BUSINESS WIRE)--Nov. 27, 2018-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., and Gold level member of Oracle PartnerNetwork (OPN), today announced the immediate availability of dedicated and private access to Oracle Cloud through [Oracle Cloud Infrastructure FastConnect](#) at CoreSite's [Northern Virginia and Washington, D.C.](#) campuses. The addition of Oracle Cloud Infrastructure FastConnect further enhances CoreSite's comprehensive cloud on-ramp ecosystem and provides support for high-performance platforms.

Through collaboration with CoreSite, Oracle customers benefit from reliable network access to their cloud data and applications from CoreSite's [Northern Virginia and Washington, D.C.](#) colocation campus. This means improved performance, enhanced control, flexibility, and scalability that can provide access to critical business data and functions. For enterprises that have modest to high bandwidth requirements and cannot tolerate the inherent variability of internet-based connections, Oracle Cloud Infrastructure FastConnect offers a more reliable and consistent networking experience.

"We are pleased to collaborate with Oracle to provide our enterprise and network customers in Northern Virginia and Washington, D.C. with secure and reliable private connectivity to Oracle Cloud through Oracle Cloud Infrastructure FastConnect," said Maile Kaiser, SVP of Sales at CoreSite. "CoreSite is always looking for innovative solutions to enable our enterprise customers to adopt hybrid cloud architecture in a high-performance, secure colocation environment."

"Customers require seamless connectivity from their data centers and networks to Oracle Cloud for their most demanding workloads and applications," said Kash Iftikhar, Vice President of Product Development, Oracle Cloud Infrastructure. "With the FastConnect service, customers can provision the dedicated and private connections they need today and easily scale with their growing business demands."

Oracle Cloud Infrastructure FastConnect enables enterprise cloud connectivity to Oracle Cloud from trusted enterprise data centers. Connecting directly to the Oracle Cloud through Oracle FastConnect enables a fast, private connection to the industry's broadest and most integrated cloud platform, with a complete range of services across Software-as-a-Service (SaaS), Platform-as-a-Service (PaaS) and Infrastructure-as-a-Service (IaaS).

Oracle Cloud offers complete SaaS application suites for ERP, HCM and CX, plus best-in-class database Platform as a Service and Infrastructure as a Service from data centers throughout the Americas, Europe and Asia. Organizations around the world are using Oracle Cloud to innovate faster, improve customer engagement, drive business-process efficiency, and accelerate digital transformation.

CoreSite's Northern Virginia campus provides CoreSite's customers with direct access to leading public cloud on-ramps, including [AWS Direct Connect](#), [Microsoft Azure ExpressRoute](#), [Alibaba Cloud](#), and IBM Cloud Direct Link, as well as [CoreSite's Open Cloud Exchange](#). In addition to its cloud capabilities, CoreSite's Northern Virginia colocation campus provides direct, low-latency network access to and from CoreSite's [data center campus in Washington, D.C.](#), and key network access points along the Eastern Seaboard, enabling networks, cloud providers, and enterprises to scale, improve performance, and reduce costs.

About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance data center and interconnection solutions to a growing customer ecosystem across eight key North American markets. More than 1,350 of the world's leading enterprises, network operators, cloud providers, and supporting service providers choose CoreSite to connect, protect and optimize their performance-sensitive data, applications and computing workloads. Our scalable, flexible solutions and 450+ dedicated employees consistently deliver unmatched data center options — all of which leads to a best-in-class customer experience and lasting relationships. About Oracle Cloud Infrastructure

Oracle Cloud Infrastructure is an enterprise Infrastructure as a Service (IaaS) platform. Companies of all sizes rely on Oracle Cloud to run enterprise and cloud native applications with mission-critical performance and core-to-edge security. By running both traditional and new workloads on a comprehensive cloud that includes compute, storage, networking, database, and containers, Oracle Cloud Infrastructure can dramatically increase operational efficiency and lower total cost of ownership. For more information, visit <https://cloud.oracle.com/iaas>.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle's products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program — an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud. Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
