

Maxihost Deploys at CoreSite's Los Angeles Data Center

October 22, 2019

-- With its Bare Metal Cloud Platform and High Performance, DDoS Protected Network --

DENVER--(BUSINESS WIRE)--Oct. 22, 2019-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions in major U.S. metropolitan areas, today announced that Maxihost deployed its advanced Bare Metal cloud platform and high performance, DDoS protected network at CoreSite's One Wilshire campus in Los Angeles.

"When we started evaluating a data center in Los Angeles, the obvious decision was CoreSite. We selected CoreSite due to its reputation and for being the most well connected data center on the West Coast, and for its competitive, flexible colocation and connectivity options for Maxihost. Our focus is serving our customers, which includes enterprises with gaming, streaming, VPNs and CDNs, all of which require a large amount of bandwidth with very low latencies," said Guilherme Soubihe Alberto, CEO of Maxihost. "Our gaming studios and publishers develop massive online multiplayer games, which are not tolerant to any kind of packet loss or outages. The very minimum our customers expect from us is a network burstable to several hundred gigabits per second, and that can protect both terabits of layer 3 and 4 DDoS attacks and the most sophisticated layer 7 attacks. Even a brief disruption will severely impact our customers' end users, so any kind of issues are just unacceptable."

"We are pleased Maxihost selected CoreSite to meet their growing needs and we are glad to serve them in our interconnection-rich, edge market in Los Angeles," said Gerry Fassig, CoreSite's Vice President of Sales. "Maxihost's business solutions enrich our ecosystem as they help enterprise organizations and content providers with their connection needs."

About Maxihost

Maxihost is a global provider of on-demand bare metal cloud and network services for businesses of all sizes. Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: the geographic concentration of the Company's data centers in certain markets and any adverse developments in local economic conditions or the amount of supply of or demand for data center space in these markets; fluctuations in interest rates and increased operating costs; difficulties in identifying properties to acquire and completing acquisitions; significant industry competition, including indirect competition from cloud service providers; failure to obtain necessary outside financing; the ability to service existing debt; the failure to qualify or maintain its status as a REIT; financial market fluctuations; changes in real estate and zoning laws and increases in real property tax rates; and other factors affecting the real estate industry generally. All forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, the Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in its most recent annual report on Form 10-K, and other risks described in documents subsequently filed by the Company from time to time with the Securities and Exchange Commission.
