

MTS Healthcare Establishes Data Center Deployment with CoreSite

November 19, 2015

Deployment Furthers MTS' Mission to Reduce the Cost and Complexity of Healthcare IT

DENVER--(BUSINESS WIRE)--Nov. 19, 2015-- [CoreSite Realty Corporation](#) (NYSE: COR), a premier provider of secure, reliable, high-performance data center solutions across the U.S., today announced that [MTS Healthcare](#), a leading healthcare cloud computing company, has chosen CoreSite as its data center solution partner, deploying within CoreSite's Los Angeles data center campus.

By joining forces with CoreSite, MTS is able to offer a highly-scalable data center solution in which to host its ever-growing healthcare cloud computing platform. CoreSite's historical portfolio record of Six 9s uptime, 100% uptime guarantee, 24/7/365 on-site security officers, and HIPAA-supportive infrastructure were just a few of the reasons MTS chose to partner with CoreSite.

"As we were exploring various data center facilities, we determined our clients will best be served at CoreSite's Los Angeles campus," said James Deck, MTS Healthcare CEO. "Certainly, CoreSite offers a secure and reliable option; but, specifically, a deployment at CoreSite will allow us to quickly scale our new G3 Cloud, healthcare's fastest and most secure Cloud computing platform."

"As the volume and complexity of healthcare IT requirements grow, healthcare organizations are finding CoreSite's data center solutions to be a secure and reliable option," said Steve Smith, SVP of sales and marketing at CoreSite. "MTS Healthcare shares the same customer-centric approach to serving its clients that we focus on at CoreSite. As such, working with MTS on this deployment is the first of what we hope are many such relationships."

The CoreSite [Los Angeles campus](#) includes two data center facilities – LA1, also known as One Wilshire®, one of the most interconnected buildings in the world, and LA2 with over 424,000 square feet of scalable space in downtown Los Angeles. CoreSite's Los Angeles campus is comprised of over 500 network, cloud and enterprise customers, as well as access to the largest peering exchange on the West Coast -- CoreSite's [Any2Exchange®](#) for Internet peering.
