

CoreSite Realty Corporation Achieves ISO 27001 Certification for Its Data Center Colocation Services

December 9, 2015

DENVER--(BUSINESS WIRE)--Dec. 9, 2015-- [CoreSite Realty Corporation](#) (NYSE:COR), a premier provider of secure, reliable, high-performance data center solutions across the U.S., today announced that it has successfully attained the prestigious International Organization for Standardization certification (ISO 27001) covering both its corporate policies and procedures as well as those of all of its operating data centers.

The scope of the [ISO/IEC 27001:2013](#) certification is applicable to the information security management system (ISMS) supporting CoreSite's provision and operation of 24x7 colocation hosting services for its customers.

The ISO/IEC 27001:2013 certification, one of the most stringent certifications for information security controls, confirms that ample information security controls and other forms of risk treatment are in place to detect and defend against potential data system vulnerabilities. The certification also ensures that the information security controls continue to meet security needs on an ongoing basis. More specifically, the ISO/IEC 27001:2013 award certifies that CoreSite:

- evaluates and identifies business and operational risks, and has measures in place to manage or reduce them;
- operates with a comprehensive set of information security controls and other risk management measures to address information security risks within its data centers as well as its corporate environment; and
- implements an enterprise-wide program designed to ensure that the information security controls meet the information security needs of CoreSite's constituents on an ongoing basis

"We are pleased that the hard work and professionalism of our employees has resulted in the achievement of the internationally recognized ISO certification. We believe that this certification reflects our commitment to provide CoreSite customers with secure, reliable, and high-performance data center colocation hosting solutions," said Tom Ray, CoreSite's Chief Executive Officer. "Ensuring a high level of information security is vital to the protection of the company, our customers and partners, and is a further example of our commitment to operational excellence across our organization."

The certification was performed by BrightLine, an independent, licensed CPA firm, QSA, and accredited ISO 27001 certification body by ANSI-ASQ National Accreditation Board (ANAB) and the United Kingdom Accreditation Services (UKAS).

About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance data center solutions across eight key North American markets. Forward-Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control, that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
