

CoreSite Becomes One of the First Data Center Providers to Achieve Advanced Technology Partner Status in the AWS Partner Network

November 28, 2016

DENVER--(BUSINESS WIRE)--Nov. 28, 2016-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., today announced it has achieved Advanced Technology Partner status in the Amazon Web Services (AWS) Partner Network (APN). CoreSite is one of the first data center providers to achieve this designation from AWS, further validating the strength of its secure and reliable cloud solutions.

The APN is the global partner program of AWS, focusing on helping partners build a successful AWS-based business by providing technical, marketing, and go-to-market support. As an Advanced Technology Partner, CoreSite will gain access to a variety of tools, training, and support to further enhance its AWS Direct Connect offering. To achieve Advanced Technology Partner status, CoreSite had to meet stringent requirements and pass an AWS technical review.

[AWS Direct Connect](#) is now directly available in four CoreSite markets with deployments in Los Angeles, New York/New Jersey, Silicon Valley and Northern Virginia. Additionally, access to AWS Direct Connect is available in five major markets through CoreSite's [Open Cloud Exchange](#).

AWS Direct Connect provides a dedicated network connection between an Enterprise's network and an AWS Direct Connect location. CoreSite customers can access AWS Direct Connect through a cross connection or through elastic on-demand connectivity via the CoreSite Open Cloud Exchange. Once connected, Enterprises can establish a high-capacity, secure connection to the entire suite of AWS cloud services, increasing the performance, reliability and security of AWS applications and workloads through a direct connection within CoreSite's facilities. AWS offers compute power, storage, database services, content delivery, and other functionality to enable hybrid information technology (IT) solutions, allowing enterprises to move more workloads to cloud environments.

"We are very pleased to have achieved Advanced Technology Partner status," said Brian Warren, senior vice president of product and engineering at CoreSite. "We remain committed to providing our customers with simple and reliable connectivity options to enable them to maximize their IT investments and realize the benefits of AWS. Advanced Technology Partner status is a great accomplishment for us, and we will continue to work with AWS to bring additional value to our customers."

About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance data center and interconnection solutions to a growing customer ecosystem across eight key North American markets. More than 1,000 of the world's leading enterprises, network operators, cloud providers, and supporting service providers choose CoreSite to connect, protect and optimize their performance-sensitive data, applications and computing workloads. Our scalable, flexible solutions and 400+ dedicated employees consistently deliver unmatched data center options — all of which leads to a best-in-class customer experience and lasting relationships. Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
